

SPLIT PORTABLE QUICK CONNECT REVERSE CYCLE AIR-CONDITIONER

PLS130ARAUP

QUICK CONNECT

Ultra quick connections offer extreme versatility by allowing quick and easy placement to provide cooling where it is most needed

DIGITAL TECHNOLOGY

The perfect temperature can be maintained due to an extremely accurate digital sensor. With 'Autofan', electronics monitor the room temperature and automatically ensure the optimum fan speed to maintain the ideal room temperature

I-COMFORT

The smart remote control, features the new I-COMFORT function to create a constant temperature within the space. This is done via a temperature sensor fitted in the new Planos remote control the ideal climate is set by the location of the remote control

BIOSILVER TECHSYSTEM

For increased air purification, the new BIOSILVER TECHSYSTEM combines a biological filter with an electrostatic filter (against bad smells) and a silver ion filter that help fight bacteria, with an ionizer to perfectly purify your rooms air. The ionizer helps attract airborne particles directly into the filter and releases healthy negative ions into the air. All this ensures you'll have greater air quality in your home.

AIR-CONDITIONING

TECHNICAL DATA

Dimensions Indoor unit (lxhxd)	mm	1000x290x155
Weight	Kg	11
Rated voltage/Frequency	V-Hz	220-240~50
Cooling capacity	BTU/h-W	11940-3500
Heating capacity	BTU/h-W	12830-3760
Dimensions Outdoor unit (lxhxd)	mm	763x515x258
Weight	Kg	36
Input power	W	1084
Air flow internal	m ³ /h	480-550
Moisture removal	l/24h	36
Noise level internal	dB(A)	28-35
Max noise level external	dB(A)	50

PLS130ARAUP SPLIT PORTABLE QUICK CONNECT REVERSE CYCLE AIR CONDITIONER

Maximum cooling capacity: 3,400 W (11,600 BTU/h)
Maximum heating capacity: 3,700 W (12,620 BTU/h)
Cooling energy efficiency rating: 3.18

- Easy and fast to install
- Ultra quick connections make it quick and easy to disconnect the unit
- Easy to move from room to room or one house to another
- Wall mounted ultra thin (15cm depth) combine technology with style
- **BIOSILVER TECHSYSTEM:** Biological and electrostatic filters (against bad smells) plus silver ions filter (that help fight bacteria) and ionizer to perfectly purify your room's air.
- **Digital technology:** with LED display for ease of use
- Turbo power function: creates the most comfortable conditions in the shortest possible time
- **I-COMFORT:** the temperature sensor delivers the comfort according to the conditions of the place where the remote control is.
- **Smart function:** models are fitted with electronic controls that automatically select the right cooling capacity using the three fan speeds to achieve the level of comfort chosen by the user. It does so with a minimum of noise in all operating conditions
- **Sleep function:** the microprocessor controls the operation at minimum noise, while the thermostat carefully controls the temperature in the room.
- LCD infrared remote control with wide LCD display controls all the functions of the unit
- Digital timer and thermostat
- 5 year warranty

Who can resist a good looking Italian?
